INDEX OF SUBJECTS

PAGE

ADENOHYPOPHYSIS, chronic adenohypophysitis in rhesus monkey immunised with extracts of human placenta . 125
ADRENAL GLAND, rat, necrosis in zona reticularis and part of zona fasciculata due to aflatoxin G_1 209
AFLATOXIN G_1, toxicity to rats . . 209
AFLATOXINS, teratogenic effect on chick embryo 49
ALEUTIAN DISEASE of mink, glomerulonephritis in 33
ANOXIA reduces total time of exposure to ultrasound necessary to produce lesions in spinal cord 41
AORTA, piglet, anastomosis, histopathological changes after 213
piglet, damage after anastomosis: clamp injury, medial injury with calcification, loss of elastic tissue 213
APATITE crystals in degenerate chondrocytes and in amorphous or fibrillary matrix without collagen fibrils in epiphyseal cartilage in scorbutic guinea-pigs 219
ARTERIOLES, pulmonary, development of thick muscular media, sometimes also medial hypertrophy of muscular pulmonary arteries in rats fed with *Crotalaria spectabilis* seeds . . 97
ARTERY(IES), coronary, single, arising from innominate artery, associated with single ventricle and truncus arteriosus 176
muscular pulmonary, medial hypertrophy in some rats fed with *Crotalaria spectabilis* seeds, occasional acute necrotising arteritis 97
renal, distribution of infarcts after occlusion 151
AUTO-IMMUNE DISEASE, auto-allergic aspermatogenesis, selective damage to spermatogenic cells of high antigenicity 131
in chronic adenohypophysitis in rhesus monkey immunised with extracts of human placenta possibly an . . 125

BACTERIAL SPECIES, *Clostridium botulinum*, type A, nerve crush accelerates regeneration of innervation of muscles paralysed by toxin of 9
Mycobacterium lepraemurium, electron-microscope study of rat fibroblasts infected by 21
BLOOD VESSELS, damage by ultrasound not preceded by increase in capillary permeability 41
BODIES, unidentified yellow, in lymph-glands 58
BONE(S), femur, repair of articular surface in osteo-arthritis of hip-joint . . 1
metaplastic, in lungs of rats fed with *Crotalaria spectabilis* seeds . . 97
BRONCHI, bony metaplasia in . . . 186
BRONCHIOLITIS induced by acute and chronic oxygen intoxication in young adult rats 115

CALCIFICATION of cartilage matrix abnormal and incomplete in scorbutic guinea-pigs 219
fairly common after clamp injury to media in aortic anastomosis in piglets 213
CARCINOGENESIS by 3′-methyl-4-dimethylaminoazobenzene, two phases in liver, first cytoplasmic changes and enlargement of nuclei, second bile-ductular proliferation; simultaneous 3-methylcholanthrene moves first phase to periphery of lobules and suppresses second 69
CARTILAGE, epiphyseal, in scorbutic guinea-pigs 219
metaplastic, in elastic pulmonary arteries of rats fed with *Crotalaria spectabilis* seeds 97
reparative, in repair of femoral articular surface in osteo-arthritis of hip-joint 1
CHICK embryo, teratogenic effect of aflatoxins and palmotoxins non-specific . 49
CHLOROQUINE, toxic action on ganglion cell layer of retina, effective against rat, cat, dog and mouse retina . . 139
CLARA CELLS, disappearance in bronchiolitis in oxygen-poisoned young adult rats 115
COLLAGEN sutures for aortic anastomosis in piglets, disadvantages . . . 213
COMPLEMENT and mink gamma-globulin localised in eosinophilic thrombi in glomerulonephritis in aleutian disease of mink 33
CONNECTIVE-TISSUE derivatives in repair of femoral articular surface in osteo-arthritis of hip-joint 1
CRETINISM, relation of ectopic lingual thyroid to 239
CYTOTOXICITY of serum from guinea-pigs sensitised to isologous testis greater to, and more readily absorbed by, later stages of spermatogenesis than earlier 131

PAGE

DIFFERENTIATION, cellular, multipotent expression, in neoplastic pineal parenchymal cells 27
DIMETHYLNITROSAMINE, toxicity to rat testis 201

ELASTIC FIBRES form additional part of scar tissue in healing wounds at 56 days 61
structure (core and peripheral microfibrils) in late stage of healing wounds 61
ELECTRON-MICROSCOPE STUDY of bronchiolitis in oxygen-poisoned young adult rats 115
of epiphyseal cartilage in scorbutic guinea-pigs 219
of glomerulonephritis in aleutian disease of mink 33
of late stages of wound healing . . 61
of lung lesions in Paraquat poisoning . 182
of lung lesions due to pyrrolizidine pyrroles 15
of parathyroid glands and parathyroid carcinomata from cases of primary hyperparathyroidism 189
of rat myocardium in thiamine deficiency 87
ENDOTHELIAL CELLS of lung capillaries probably site of initial change in pyrrolizidine pyrrole poisoning, changes in pneumocytes and interstitial cells secondary 15
ENZYMES, liver, loss of succinic and glutamate dehydrogenase and non-specific esterase, reduction of canalicular ATPase and increase in cytoplasmic ATPase and non-specific alkaline phosphatase after repeated halothane administration in the horse 107
plasma, leakage into of glutamate and sorbitol dehydrogenases, arginase and glutamate-oxaloacetate transaminase after administration of halothane to horses 107
EPITHELIUM, pulmonary alveolar, shedding of in Paraquat poisoning 182

FIBRES, elastic, in late stages of healing wounds, core and microfibril structure 61
myocardial, dark-staining in thiamine-deficient rats 87
FIBROBLASTS, association of elastic fibres with, in late stage of wound healing . 61
FIBROSIS, intimal, absent from pulmonary arteries of rats fed with *Crotalaria spectabilis* seeds 97
progressive pulmonary, in Paraquat poisoning 182

PAGE

GAMMA-GLOBULIN, mink, and complement localised in eosinophilic thrombi in glomerulonephritis in aleutian disease of mink 33
GANGLIOGLIOMA, gangliogliomatous differentiation in pineocytoma 27
GLOMERULUS, renal, in aleutian disease of mink: electron-dense material deposited in capillary wall and mesangium, proliferation of mesangial cells and matrix and swelling of endothelial cells reduce capillary lumen . . 33
GUINEA-PIGS, scorbutic, epiphyseal cartilage in 219
sensitised with isologous testis, more advanced spermatogenic cell stages less frequent in testes, earlier stages only in severe testicular damage . 131
teratomas of ovary in 180

HAEMORRHAGE in spinal cord damaged by ultrasound 41
HALOTHANE, effect of repeated administration on liver of horse 107
HEALING, late, of wounds 61
HIP-JOINT, osteo-arthritis, repair at femoral articular surface in 1
HORSE liver, histological and histochemical changes, and leakage of enzymes into plasma, after administration of halothane 107
HYPERPARATHYROIDISM, primary, ultrastructure of parathyroid glands from 189
HYPERTENSION, pulmonary vascular, after prolonged feeding of rats with *Crotalaria spectabilis* seeds . . 97

INFARCTION, ischaemic, in kidney, distribution dependent on vessels occluded: occlusion of renal artery gives mainly cortical infarction, of pedicle, vein, or all venous drainage, medullary infarction 151
of rabbit intestine by intra-arterial injection of microspheres, area of increased by adrenaline infusion 178
INTENSITY threshold for ultrasound to damage spinal cord not greater than 25W per cm^2 41
INTESTINE, rabbit, production of mucosal ulceration by intra-arterial injection of microspheres 178

JOINT, hip, repair of femoral articular surface in osteo-arthritis of . . 1

KIDNEY, amorphous eosinophilic material in glomerular capillaries after external cardiac massage 54

PAGE

KIDNEY, necrosis of cortical tubules in rats given aflatoxin G_1 209
rabbit, patterns of infarction after different types of temporary ischaemia 151

LIVER cancer, aetiology in Bantu . . 163
necroses, centrilobular, with broader zone of swollen acidophilic cells with vacuolated cytoplasm, loss of glycogen and of particulate staining after repeated administration of halothane in horse 107
rat, lesions due to aflatoxin G_1 diffuse periportal zonal necrosis of variable severity; if animal survives, persistent bile-duct hyperplasia and cholangiofibrosis 209
toxic damage due to sterigmatocystin, metabolite of *Aspergillus* spp., closely resembles early liver carcinoma in Bantu 163
LOCALISATION of mononuclear macrophage antecedent cells at site of inflammation 333
LUNG, bronchiolitis in oxygen-poisoned young adult rats 115
carcinoma and chronic bronchitis associated with ulceration of tricuspid valve 171
changes in Paraquat poisoning . . 182
eosinophilic, beaded, amorphous material in capillaries after external cardiac massage 54
hypertensive pulmonary vascular disease in rats after prolonged feeding with *Crotalaria spectabilis* seeds . . 97
lesions induced by pyrrole derivatives of pyrrolizidine alkaloids, primary effect on capillary endothelium . 15
pulmonary vascular hypertension due to chronic bronchitis or carcinoma may be cause of tricuspid ulceration . 171
LYMPH-NODES, unidentified yellow bodies in 58
LYSOSOME material surrounds *Mycobacterium lepraemurium* growing in rat fibroblasts in tissue culture . . 21

MALFORMATIONS, congenital, single coronary artery arising from innominate artery, associated with single ventricle and truncus arteriosus 176
MARK/SPACE RATIO in exposure to ultrasound, increase delays damage to spinal cord, does not prevent it; exposure time necessary for damage linearly related to 41
MASSAGE, external cardiac, renal and pulmonary lesions after, possibly due to intravascular coagulation . . 54

PAGE

MEDIUM, in Eagle's medium plus 1 per cent. calf serum 14 pf rat fibroblasts will not support growth of *Mycobacterium lepraemurium* and are ultrastructurally abnormal; 1:1 human cord serum: Hanks' balanced salt solution effective 21
METAPLASIA, cartilaginous, of elastic pulmonary arteries in rats fed for long time with *Crotalaria spectabilis* seeds; osseous, in organising intra-alveolar exudate 97
diversified non-specific, of bronchiolar epithelium in oxygen poisoning in young adult rats 115
osseous, in trachea and bronchi . . 186
3-METHYLCHOLANTHRENE displaces first phase of 3′-methyl-4-dimethylaminoazobenzene carcinogenesis to periphery of liver lobule, suppresses second 69
3′-METHYL-4-DIMETHYLAMINOAZOBENZENE carcinogenesis, 2 phases in liver, first cytoplasmic changes and nuclear enlargement, second bile-ductular hyperplasia; 3-methylcholanthrene moves first to periphery of lobule, suppresses second 69
MICROSPHERES, latex, intra-arterial injection to produce mucosal ulceration in rabbit intestine 178
MINK, glomerulonephritis in aleutian disease in 33
MONKEY, rhesus (*Macaca mulatta*), immunised with extracts of human placenta, chronic adenohypophysitis in 125
MONOCROTALINE pyrrole, lung lesions induced by 15
MYOCARDIUM of thiamine-deficient rats, focal of areas necrosis; ultrastructurally mitochondrial abnormalities within individual fibres; no abnormalities of conduction system . . . 87

NEUROPATHY, peripheral, transnodal remyelination in 51

OSTEO-ARTHRITIS of hip-joint, repair of femoral articular surface in . . 1
OVARY, teratomas in guinea-pigs . . 180
OXYGEN intoxication, acute and chronic, effects on young adult rats . . 115

PARAQUAT poisoning, lung changes in . 182
PEDICLE, renal, distribution of infarcts after occlusion 151

PAGE

PHENOTHIAZINE DERIVATIVES retinotoxic to cat only, direct effect on visual cells . 139
PIGMENT, retinal, pigmentary changes in chloroquine retinopathy . . . 139
PINEOCYTOMA, ganglioglioma tous differentiation in 27
PITUITARY GLAND, chronic adenohypophysitis in rhesus monkey immunised with extracts of human placenta . 125
PROTEIN-deprived rat, increased toxicity of dimethylnitrosamine to testis of . 201
PULSE LENGTHS, sum of equals total irradiation time with ultrasound; total irradiation time so defined characteristic of ultrasound frequency . . 41
PYRROLES derived from pyrrolizidine alkaloids, toxic effects in lung . . 15
PYRROLIZIDINE ALKALOIDS, lung lesions induced by pyrroles derived from . 15
prolonged feeding of rats with *Crotalaria spectabilis* seeds leads to hypertensive pulmonary vascular disease with right ventricular hypertrophy, development of thick muscular layer in pulmonary arterioles and sometimes medial hypertrophy in muscular pulmonary arteries occasionally with acute necrotising arteritis 97

RABBIT intestine, production of mucosal ulceration by intra-arterial injection of microspheres 178
patterns of renal infarction after different types of temporary ischaemia . . 151
RAT, chronic *Crotalaria spectabilis* poisoning in 97
fibroblasts, infected with *Mycobacterium lepraemurium* 21
myocardium in thiamine deficiency . 87
testis, toxicity of dimethylnitrosamine to 201
young adult, bronchiolitis in oxygen poisoning 115
REGENERATION of innervation of skeletal muscles paralysed by *Clostridium botulinum* toxin, effect of nerve crush 9
REMYELINATION, transnodal, in peripheral neuropathy 51
RETINA, toxicity of chloroquine and phenothiazine derivatives to . . 139
RETRORSINE pyrrole, lung lesions induced by 15
REVIEWS OF BOOKS—
Transplanted tumours of rats and mice: an index of tumours and host strains (D. C. Roberts) 123
Ultrastructure of synovial joints in health and disease (Feroze N. Ghadially and Subimal Roy) 123

PAGE

REVIEWS OF BOOKS—*continued*
Chemistry and molecular biology of the intercellular matrix (ed. by Endre A. Balazs) 124

SCURVY, epiphyseal cartilage in guinea-pigs with 219
SERUM from guinea-pigs sensitised with isologous testis more toxic to late stages of spermatogenesis than to earlier stages 131
SPECIES DIFFERENCE in susceptibility to retinal damage: chloroquine effective in rat, cat, dog and mouse, phenothiazine derivatives in cat only . . 139
SPERMATOGENIC CELLS, later stages more antigenic than earlier 131
SPINAL CORD, effect of ultrasound decreases with higher frequencies, if thermal effect avoided 41

TEASED-FIBRE TECHNIQUE for examination of single nerve fibres 51
TERATOGENIC EFFECT of aflatoxins and palmotoxins on chick embryo . . 49
TESTIS of guinea-pigs sensitised with isologous testis shows significantly lower number of late stages of spermatogenesis, suggesting these more antigenic than earlier stages 131
rat, dimethylnitrosamine produces moderate to severe necrosis of seminiferous epithelium, worse in protein-deprived rats 201
total length of tubules in: theory and practice of method 229
THYROID, ectopic lingual, commoner in women, so may depend on hormonal factors 239
TISSUE CULTURE of 14 pf fibroblasts to grow *Mycobacterium lepraemurium* . 21
TONGUE, ectopic thyroid in 239
TOXINS, *Cl. botulinum* neurotoxin, effect of nerve crush on regeneration of innervation in muscles paralysed by . 9
TUMOURS, ANIMAL, experimental, of liver, due to 3′-methyl-4-dimethylaminoazobenzene, effect of 3-methylcholanthrene on 69
teratomas of ovary in guinea-pig . . 180
TUMOURS, HUMAN, cancer of the parathyroid in primary hyperparathyroidism 189
hepatocarcinoma, aetiology in Bantu . 163
pineocytoma with ganglioglioma tous differentiation 27
TRACHEA, bony metaplasia in . . . 186

ULCERATION of tricuspid valve, incidence higher in men than women, increases

PAGE

to end of 7th decade, associated with lung disease 171
ULTRASOUND effect on spinal cord less with higher frequencies, greater with lower 41

VALVES, CARDIAC, comparison of pulmonary effects of mitral stenosis with those of chronic *Crotalaria spectabilis* poisoning in rats 97
tricuspid, isolated ulceration . . 171
VEIN, renal, distribution of infarcts after occlusion 151
VENOUS DRAINAGE, renal, distribution of infarction after occlusions . . 151
VIRUS, of aleutian disease present as crystalline arrays in endothelial cells of renal glomerular capillaries of infected mink 33

WOUND healing, late stages . . . 61

INDEX OF AUTHORS

PAGE

AARONSON, I., and BERRY, C. L., the production of mucosal ulceration in the rabbit gut by intra-arterial injection of microspheres 178

ABERDEEN, EOIN, BERRY, C. L., and STARK, J., histopathological changes after aortic anastomosis: their effects on the assessment of suture materials . . 213

ADEKUNLE, A., and BASSIR, O., teratogenic action of aflatoxin B_1, palmotoxin B_0 and palmotoxin G_0 on the chick embryo 49

AHMAD, K. N., LENNOX, B., and MACK, W. S., a method for determining the relative total length of the tubules in the testis 229

ASHLEY, D. J. B., bony metaplasia in trachea and bronchi 186

BASSIR, O., and ADEKUNLE, A., teratogenic action of aflatoxin B_1, palmotoxin B_0 and palmotoxin G_0 on the chick embryo 49

BECK, J. S., and MELVIN, JENNIFER M. O., chronic adenohypophysitis in a rhesus monkey immunised with extracts of human placenta 125

BERRY, C. L., and AARONSON, I., the production of mucosal ulceration in the rabbit gut by intra-arterial injection of microspheres 178

BERRY, C. L., STARK, J., and ABERDEEN, EOIN, histopathological changes after aortic anastomosis: their effects on the assessment of suture materials . . 213

BONUCCI, E., fine structure of epiphyseal cartilage in experimental scurvy . 219

BOYD, J. F., and VALENTINE, J. C., unidentified yellow bodies in human lymph-nodes 58

BROWN, CAROLYN A., and DRAPER, P., an electron-microscope study of rat fibroblasts infected with *Mycobacterium lepraemurium* . . . 21

BUTLER, W. H., an ultrastructural study of the pulmonary lesion induced by pyrrole derivatives of the pyrrolizidine alkaloids 15

BUTLER, W. H., and HARD, G. C., toxicity of dimethylnitrosamine for the rat testis 201

BUTLER, W. H., and LIJINSKY, W., acute toxicity of aflatoxin G_1 to the rat . 209

DAVIES, D. J., the patterns of renal infarction caused by different types of temporary ischaemia . . . 151

DAVIES, M. J., and JENNINGS, R. B., the ultrastructure of the myocardium in the thiamine-deficient rat . . 87

DINN, J. J., transnodal remyelination . 51

DRAPER, P., and BROWN, CAROLYN A., an electron-microscope study of rat fibroblasts infected with *Mycobacterium lepraemurium* . . . 21

DUCHEN, L. W., the effects in the mouse of nerve crush and regeneration on the innervation of skeletal muscles paralysed by *Clostridium botulinum* toxin 9

FACCINI, J. M., the ultrastructure of parathyroid glands removed from patients with primary hyperparathyroidism: a report of 40 cases, including four carcinomata 189

FORD, E. J. H., GOPINATH, C., and JONES, R. S., the effect of the repeated administration of halothane on the liver of the horse 107

GOPINATH, C., JONES, R. S., and FORD, E. J. H., the effect of the repeated administration of halothane on the liver of the horse 107

GREGORY, M. H., RUTTY, D. A., and WOOD, R. D., differences in the retinotoxic action of chloroquine and phenothiazine derivatives . . 139

GRINYER, I., PAN, I. C., TSAI, K. S., and KARSTAD, L., glomerulonephritis in aleutian disease of mink: ultrastructural studies 33

HALLERAKER, B., and HARTVEIT, FLORA, intravascular changes in kidneys and lungs after external cardiac massage: a preliminary report . . . 54

HARD, G. C., and BUTLER, W. H., toxicity of dimethylnitrosamine for the rat testis 201

HARLAND, W. A., TONER, P. G., VETTERS, J. M., and SPILG, W. G. S., fine structure of the lung lesion in a case of Paraquat poisoning . . . 182

PAGE

HARMAN, J. W., quantitative studies of early cytological alterations induced in rat liver by 3′-methyl-4-dimethylaminoazobenzene, as affected by 3-methylcholanthrene 69
HARRISON, GLADYS, ROSAN, R. C., and SLOANE, ARLENE, bronchiolitis induced by experimental acute and chronic oxygen intoxication in young adult rats 115
HARTVEIT, FLORA, and HALLERAKER, B., intravascular changes in kidneys and lungs after external cardiac massage: a preliminary report 54
HEATH, D., SMITH, P., and KAY, J. M., hypertensive pulmonary vascular disease in rats after prolonged feeding with *Crotalaria spectabilis* seeds . 97

JENNINGS, R. B., and DAVIES, M. J., the ultrastructure of the myocardium in the thiamine-deficient rat . . 87
JOHNSON, M. H., selective damage to spermatogenic cells of high antigenicity during auto-allergic aspermatogenesis 131
JONES, R. S., GOPINATH, C., and FORD, E. J. H., the effect of the repeated administration of halothane on the liver of the horse 107

KARSTAD, L., PAN, I. C., TSAI, K. S., and GRINYER, I., glomerulonephritis in aleutian disease of mink: ultrastructural studies 33
KAY, J. M., SMITH, P., and HEATH, D., hypertensive pulmonary vascular disease in rats after prolonged feeding with *Crotalaria spectabilis* seeds . 97
KEELING, JEAN W., anomalous origin of a single coronary artery . . . 174

LENNOX, B., AHMAD, K. N., and MACK, W. S., a method for determining the relative total length of the tubules in the testis 229
LIJINSKY, W., and BUTLER, W. H., acute toxicity of aflatoxin G_1 to the rat . 209

MACK, W. S., LENNOX, B., and AHMAD, K. N., a method for determining the relative total length of the tubules in the testis 229
MEACHIM, G., and OSBORNE, G. V., repair at the femoral articular surface in osteo-arthritis of the hip . . . 1
MELVIN, JENNIFER M. O., and BECK, J. S., chronic adenohypophysitis in a rhesus monkey immunised with extracts of human placenta 125

PAGE

OKAZAKI, H., and RUBINSTEIN, L. J., gangliogliomatous differentiation in a pineocytoma 27
OSBORNE, G. V., and MEACHIM, G., repair at the femoral articular surface in osteo-arthritis of the hip . . . 1

PAN, I. C., TSAI, K. S., GRINYER, I., and KARSTAD, L., glomerulonephritis in aleutian disease of mink: ultrastructural studies 33
POMERANCE, ARIELA, isolated ulceration of the tricuspid valve . . . 171
PURCHASE, I. F. H., TORRES, F. O., and VAN DER WATT, J. J., the aetiology of primary liver cancer in the Bantu . 163

ROSAN, R. C., HARRISON, GLADYS, and SLOANE, ARLENE, bronchiolitis induced by experimental acute and chronic oxygen intoxication in young adult rats 115
RUBINSTEIN, L. J., and OKAZAKI, H., gangliogliomatous differentiation in a pineocytoma 27
RUTTY, D. A., GREGORY, M. H., and WOOD, R. D., differences in the retinotoxic action of chloroquine and phenothiazine derivatives 139

SAUK, J. J., JR, ectopic lingual thyroid . 239
SLOANE, ARLENE, HARRISON, GLADYS, and ROSAN, R. C., bronchiolitis induced by experimental acute and chronic oxygen intoxication in young adult rats 115
SMITH, P., KAY, J. M., and HEATH, D., hypertensive pulmonary vascular disease in rats after prolonged feeding with *Crotalaria spectabilis* seeds . 97
SPILG, W. G. S., TONER, P. G., VETTERS, J. M., and HARLAND, W. A., fine structure of the lung lesion in a case of Paraquat poisoning . . . 182
STARK, J., BERRY, C. L., and ABERDEEN, EOIN, histopathological changes after aortic anastomosis: their effects on the assessment of suture materials . 213

TAYLOR, K. J. W., ultrasonic damage to spinal cord and the synergistic effect of hypoxia 41
TONER, P. G., VETTERS, J. M., SPILG, W. G. S., and HARLAND, W. A., fine structure of the lung lesion in a case of Paraquat poisoning . . . 182
TORRES, F. O., PURCHASE, I. F. H., and VAN DER WATT, J. J., the aetiology of primary liver cancer in the Bantu . 163
